

Shaping Tomorrow with you

Passionate about making
a difference?

Want to **shape** the way we live?

Fujitsu is looking for digitally savvy and enthusiastic individuals who want to learn and lead ideas forward. In return, you'll work alongside experts in the field and take on responsibilities that will fast track your career.

Who we are

Fujitsu is one of the world's largest Information and Communications Technology (ICT) companies, with approximately 132,000 employees in more than 100 locations, serving 10 million customers globally. We use our experience and the power of ICT to shape the future of society with our customers.

Fujitsu the Next Generation

The Graduate Program

Throughout the **12 month Program**, Graduates are hired into streams and undertake job specific learning experiences, **tailored training modules** with their cohort and **short-term assignments**.

The blended learning model integrates **onsite** sessions, **virtual** modules, **project based** learning and self-paced learning. Our framework is designed to develop our Graduates both personally and professionally.

Over the 12 month Program, you will learn to harness critical skills of the future such as remote self-management, leadership, teamwork, problem solving and self-awareness.

Check out the roles we are offering next year below!

Sales & Customer Service Management

- Client Services
- Client Engagement (Sales)

Information Technology (Service Delivery)

Responsible Business - Sustainability

Finance & Operations

How to apply

The recruitment process starts with an online application then a cognitive assessment and a video interview. If all that goes well, you'll be invited to a virtual assessment centre. If you shine there, and pass the necessary police and reference checks, you'll receive a job offer.
